FIND DRECO A GOOD MEDICINE

This Lady Tells How Two Bottles Relieved Kidneys and Stomach; Ended Backache, Gastritis and Dizziness.

A woman's health is her most precious asset. Just let one little part of the wonderful machine go wrong and the effect is noticeable almost at once. The complexion shows it by becoming muddy and sallow, the eyes show it by becoming dull and lifeless, in fact, there is a decided and noticeable difference between the appearance of a well woman and one who is constantly suffering from some of the many nameless ailments which seem to be woman's lot. That Dreco has proven the ideal tonic for women is shown by the letters received telling of its merits. For instance:

MRS. EVA MERTENS.

"My work caused me to stand on my feet nearly all day long and at night I'd be worn out. Sometime ago I noticed my kidneys bothering me so I knew I must begin on a reliable medicine right away," stated Mrs. Eva Mertens of 152 Jones and Gifford Ave., Jamestown, N. Y. Mrs. Mertens is well known through her experience in giving Electrical Treatments and wants her friends to know that she is now established and ready to cater to their needs.

"My stomach was deranged and the gas often pressed against my heart giving a very queer feeling. I frequently felt dizzy and suffered terribly from headaches.

"I've finished the second bottle of Dreco and my improvement is wonderful. The kidney weakness has passed off, never have gas in the stomach, am free of dizzy spells and my strength has increased till my work no longer tires me out. I'm very grateful for having found Dreco."

Dreco is being specially introduced by the O'Donnell's Drug Store, 604 9th St. N. W.

R. I. AVENUE CLUB RAPS DISTRICT ON TREE-PLANTING

Attack Also Made on One-Man Cars at Stated Meeting.

Resentment toward the Commissioner Engineer's office for its communication tending to delay tree planting along Kearney street, between Eighteenth and Twentieth streets northeast, and denunciation of one-man street cars, were some of the paramount issues at last night's session of the Rhode Island Citizens Association, in Sherwood Presbyterian Church, Twenty-second street and Rhode Island avenue. Oscar D. Weeks, fostering a movement advocating "Beautify Northeast," opened criticism, in explaining that the engineering department could materially assist but refused to co-operate.

MRS. HATFIELD SABINA, OHIO

In Pitiable Condition When She Began Taking Lydia E. Pinkham's Vegetable Compound

Sabina, Ohio.—"I took Lydia E. Pinkham's Vegetable Compound for weakness and irregularity. I was weak and nervous and could hardly stand on my feet long enough to cook a meal. I was this way for about a year and had tried several medicines and had a physician, but to no avail. My sister was taking your medicine and finally induced me to try it. I now feel fine and can do my housework without any trouble at all. You can use this letter for the sake of others if you wish."—Mrs. WELDON G. HATFIELD, R. R. 3, Sabina, Ohio.

Housewives make a great mistake in allowing themselves to become so weak and nervous that it is well-nigh impossible for them to attend to their necessary household duties. Lydia E. Pinkham's Vegetable Compound should be taken when you first notice such symptoms as nervousness, backache, weakness and irregularity. It will help you and prevent more serious trouble.

reets for traffic violations, of which 8,374 were for speeding. The court disposed of the cases by fining 8,374 speeders and 17,325 other traffic offenders, by jailing eleven speeders and seventeen other violators without fines, and by jailing 111 speeders and 944 others for failure to provide fines.

INDIAN URGES U. S. ENTRY IN LEAGUE

Mir Mahmood Tells Audience Here It Is Up to Nation To Aid Europe.

Pointing to the fact that four-fifths of the people of the world are represented in the league of nations, Mir Mahmood, member of the Indian National Congress and president of the Oxford International Assembly, addressing a meeting of the George Washington University Free Lance Club at the university law school last night, pronounced as artificial the aloof position of the United States in refusing to participate with other nations in an effort to give organized direction to world affairs.

"Experience has shown that a recognition of duties rather than an insistence upon rights, is the only basis of relationship between nations which will assure peace," Mahmood asserted, replying to the argument that our entrance into the league would impair our rights as a nation. "The league of nations, notwithstanding its manifest defects," he continued, "affords the first permanent international organization where men of all nations may meet on a common ground for the purpose of exchanging the better thought of their respective countries."

The fact that the league is not functioning as it was intended, the speaker attributed largely to the absence of the United States. The entrance of the United States into the activities of the league, Mr. Mahmood stated, would do more to stabilize Europe than any other one thing.
